

Daniel Juan de Dios Aguiñaga Gómez

Data Analyst

Puebla, México | danielgg670@gmail.com | +52 2226623605 | <https://www.linkedin.com/in/danielaguinaga-dataanalyst/> | <https://github.com/Dagadover>

Professional Profile

Data Analyst with a background in Data Science and hands-on experience using Business Intelligence tools to support data-driven decision-making. Experienced in exploratory data analysis, data visualization, and generating actionable insights from structured datasets. Strong knowledge of SQL, Python, and visualization tools such as Power BI and Tableau. Recognized for analytical thinking, clear communication of results, and a problem-solving mindset. Proactive professional with strong learning ability and experience working in multidisciplinary teams.

Technical Skills

SQL | Python | Power BI | Tableau | Excel | Data Analytics | Data Visualization | Data Cleaning | Data Transformation | Statistics | Git | Jupyter Notebook

Experience

Audiobook Editor, Jarpa Studio 2020 – 2025

- Analyze and validate large volumes of operational data to ensure quality, consistency, and compliance with defined criteria.
- Apply quality control rules and metrics to detect errors, deviations, and recurring patterns.
- Document results and generate operational reports to support continuous process improvement and decision-making.

Achievements:

- Optimized validation and quality control processes through systematic data analysis, reducing errors and rework.
- Implemented standardized evaluation criteria that improved data consistency and operational efficiency.
- Generated documentation and reports that supported informed decision-making and process improvement.

Video Game Localization QA Analyst, Keywords Studios 2021 – 2022

- Analyze localized content using standardized criteria to identify errors, inconsistencies, and quality issues.
- Compare results across versions and document findings to ensure consistency and compliance with standards.
- Log incidents and produce quality reports to support continuous improvement initiatives.

Achievements:

- Improved error detection through systematic evaluation and comparative analysis.
- Enhanced content quality and consistency by documenting and standardizing recurring issues.
- Contributed to quality control process improvements through clear and traceable reporting.

Projects

A/B Testing – New Traffic Sources Evaluation | 2025 <https://github.com/Dagadover>

- **Brief Description:** Designed and executed an A/B test to evaluate the impact of new traffic sources on conversion rates.
- **Technologies Used:** Python, Pandas, SciPy, Inferential Statistics, A/B Testing.
- **Key Responsibilities:** Designed the experiment and A/A validation; analyzed conversions using t-tests and confidence intervals; interpreted results and provided business recommendations.
- **Impact / Achievements:** Delivered actionable insights to optimize traffic acquisition strategies based on statistical evidence.

End-to-End Data Analysis and Predictive Modeling Project | 2025

<https://github.com/Dagadover>

- **Brief Description:** Developed a full data analysis project from data exploration to business insight generation.
- **Technologies Used:** Python, Pandas, Scikit-learn, SQL, Logistic Regression, Random Forest, EDA.
- **Key Responsibilities:** Cleaned and analyzed 25,000+ records; trained and evaluated predictive models; communicated findings for decision-making.
- **Impact / Achievements:** Achieved **78-85% model accuracy**, delivering actionable insights for real-world business scenarios.

Customer Churn Prediction and Segmentation | 2025.

<https://github.com/Dagadover>

- **Brief Description:** Built a churn prediction and customer segmentation model to identify high-risk customers.
- **Technologies Used:** Python, Scikit-learn, Clustering, Classification Models, KPI Analysis.
- **Key Responsibilities:** Modeled churn probability; segmented customers using clustering techniques; analyzed key variables related to retention.
- **Impact / Achievements:** Achieved **90%+ accuracy**, enabling identification of critical customer segments and supporting retention strategies.

Education

Universidad del Valle de México Master’s Degree in Data Science (In progress)	2023 – 2026
Tecnológico de Monterrey (ITESM) Bachelor’s Degree in Audio Engineering	2014 – 2020

Certifications

Data Analysis Triple Ten	2025 – 2026
Project Planning University of California, Irvine	2024
Engineering Project Management Rice University	2024

Languages

Spanish (Native) | English (Intermediate – B1)
